Resolution in Support of HR 3745 (TBNK)

Mr. Tom Litzler was present for the meeting to ask Council to consider passing a Resolution in support of HR 3745. Mr. Litzler explained that this is called the CAP Act. This stands for Community Access and Preservation Act, and was introduced last October. This act has gradually moved through House and amends section 611 of the Communications Act of 1934 relating to capacity and channels for Public, Educational and Government (PEG) use. These channels are set aside for local schools, colleges and Governments. and benefit our communities. The State now receives the franchise fees and sends them to the Cities which are only receiving about 88% of what was sent directly to the Cities previously. Insight customers are getting 100%

of the franchise fees, but are still less than what we used to receive. This Resolution would address these issues immediately. Mr. Litzler answered questions that Council needed more information on. Since Mr. Wall had to leave the meeting there was not enough Council members for a quorum, so the vote on this Resolution will have to be at the next Legislative meeting.
