INDEPENDENT AUDITOR'S REPORT

City of Fort Wright, Kentucky 409 Kyles Lane Fort Wright, KY 41011

To the Honorable Mayor and Members of the City Council

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Fort Wright, Kentucky (City) as of and for the year ended June 30, 2016 and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Fort Wright, Kentucky, as of June 30, 2016, and the respective

changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison, and pension information, as listed in the table of contents, to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basis financial statements.

The combining nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

Fort Thomas, Kentucky December 12, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of City of Fort Wright, Kentucky's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2016. Please read it in conjunction with the City's basic financial statements.

FINANCIAL HIGHLIGHTS

The City's governmental funds fund balance was \$6,569,812 at year end, an increase of \$1,133,405 over the prior year. The City's cash balances increased \$975,012 over the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most financially significant funds.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net position and the Statement of Activities report information about the City as a whole and about its activities. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's *net position* and changes in them. You can think of the City's net position, the difference between assets and liabilities, as one way to measure the City's financial health, or *financial position*. Over time, *increases or decreases* in the City's net position are one indicator of whether its *financial health is* improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the City's property tax base, license fee base, and the condition of the City's capital assets (roads, buildings, and sidewalks) to assess the *overall health* of the City.

In the Statement of Net Position and the Statement of Activities, the City has only governmental activities:

Governmental activities: most of the City's basic services are reported here, including the police, fire, street maintenance, parks and recreation, and general administration. License fees, property taxes, and state and federal grants finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide detailed information about the most significant funds-not the City as a whole. Some funds are required to be established by State law. However, the City Council establishes many other funds to help it control and manage money for particular purposes

(Ex. Capital Project Fund) or to show that it is meeting legal responsibilities for grant funds (Ex. Municipal Aid Grant Fund).

Governmental funds: Most of the City's basic service sare reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds in reconciliation beside the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

For the year ended June 30, 2016, net position changed as follows:

Beginning net position Change in net position	\$ 10,072,796 693,970	
Ending net position	\$ 10,766,766	
	2016	2015
Current assets	\$ 6,712,387	\$ 5,687,055
Capital assets	7,298,905	7,465,762
Total assets	14,011,292	13,152,817
Deferred outflows of resoucres	812,784	500,327
Current liabilities	142,555	236,513
Noncurrent liabilities	71,412	72,435
Net pension liability	3,745,670	3,029,000
Total liabilties	3,959,637	3,337,948
Deferred inflows of resources	97,673	242,400
Net position	\$ 10,766,766	\$ 10,072,796

GENERAL FUND BUDGETARY HIGHLIGHTS AND FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Over the course of the year, the City Council revised the General Fund budget. The budget amendment was to increase the beginning fund balance to actual and to change expenditures to more closely reflect the anticipated actual expenditures for the year. Actual revenue was \$659,571 more than budget and actual expenditures were \$643,832 less that budget.

The following schedule presents a summary of governmental fund revenues and expenditure for the fiscal years ended June 30, 2016 and 2015.

Revenues	2016		2015
Taxes	\$ 1,727,424	\$	1,636,544
Licenses and permits	2,430,005		2,234,630
Intergovernmental	262,336		330,815
Changes for services	185,580		244,493
Waste fees	321,930		301,076
Fines and forfeitures	14,582		17,860
Interest income	19,760		11,950
Other revenue	 67,138		168,440
Total revenues	\$ 5,028,755	\$	4,945,808
Expenditures			
General government	\$ 407,584	\$	412,591
Police	1,143,308		1,154,704
Fire	918,373		904,655
Public works	503,596		412,539
Waste fees	311,938		300,601
Parks and recreation	144,833		136,139
Capital outlay	465,658		1,184,045
Debt service	 		359,262
Total expenditures	\$ 3,895,290	\$	4,864,536

CAPITAL ASSETS

At the end of June 30, 2016, the City had \$28,799,536 invested in capital assets including police and fire equipment, buildings, park facilities, roads, and sidewalks.

	2016	2015
Land	\$ 1,523,000	\$ 1,523,000
Buildings	1,485,754	1,485,754
Infrastructure/improvements	23,204,879	22,747,984
Vehicles	1,396,674	1,169,229
Equipment	1,189,229	1,310,384
Total capital assets	\$ 28,799,536	\$ 28,236,351

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The city continued to implement the 5-year street improvement program reconstructing, during 2015-2016, Beaumont Court at a cost of approximately \$450,000. Even with an aggressive street improvement program the city is able to maintain an adequate carry over budget balance to fully fund the operations of the Police, Fire and Public Work Departments.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide for all those with an interest in the government's finances, a general overview of the City's finances. If you have questions about this report or requests for additional financial information, contact the City Administrator's office at 409 Kyles Lane, Ft. Wright, Kentucky 41011.

City of Fort Wright, Kentucky
Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds to the
Statement of Activities
For the Year Ended June 30, 2016

Net change in fund balances - total governmental funds

\$ 1,133,465

Amounts reported for governmental activities in the statement of activities are difference because:

Governmental funds report capital outlays as expenditures. However. in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay 563,295
Depreciation expense (744,236)

Expenses reported in the statement of activities that do not require current financial resources are not reported as expenses in the funds Compensated absences

1,022

Governmental funds report pension contribution as expenditures. However, in the statement of activities, the cost of pension benefits earned is reported as pension expense

(259,576)

Change in net position of governmental activities

\$ 693,970

NOTE 1 – ACCOUNTING POLICIES

Kentucky Revised Statutes and Ordinances of the City Council of the City of Fort Wright, Kentucky (City) designate the purpose, function and restrictions of the various funds.

A. The Reporting Entity

The City operates under a City Council government comprised of the Mayor and six council members. The financial statements of the City include all of the funds for which the Mayor and City Council are financially accountable. Financial accountability, as defined by Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards was determined on the basis of the City's ability to significantly influence operations, select the governing authority, participate in fiscal management, and the scope of public services. The City has no component units or entities for which the government is considered to be financially accountable.

B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements – The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government.

The statement of net position presents the financial condition of the governmental activities of the City at year end. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements – During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to determine legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds, if any, are presented in a single column.

C. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or may not be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, deferred outflows, liabilities, and deferred inflows is reported as fund balance. The following are the City's major governmental funds:

General Fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Kentucky.

Municipal Road Aid Fund – The municipal road aid fund accounts for the allocation of funds from the Commonwealth of Kentucky as provided in KRS 174 for design, right-of-way acquisitions, utilities, construction, and other municipal road aid expenditures.

D. Measurement Focus

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows, liabilities, and deferred inflows associated with the operation of the City are included on the statement of net position. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows and current liabilities and deferred inflows are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (e.g. revenues and other financing sources) and uses (e.g. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which governmental activities of the government – wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the financial statements for governmental funds.

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and deferred outflows, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Nonexchange Transactions - Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within thirty days of year end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, and grants. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, for which the City must provide local resources to be used for a specified purpose, and expenditure requirements, for which the resources are provided to the City on a reimbursement basis.

On the modified accrual basis, revenue from non-exchange transactions must also be available before it is recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: state-levied locally shared taxes.

Deferred Inflows of Resources and Deferred Outflows of Resources – A deferred inflow of resources is an acquisition of net position by the City that is applicable to a future reporting period. A deferred outflow of resources is a consumption of net position by the City that is applicable to a future operating period.

Taxes and assessments not received within the available period are recorded as deferred inflows in the governmental fund financial statements.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on the decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measureable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

F. Budgetary Data

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) In accordance with City code, prior to June 1, the Mayor submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
- 2) Public hearings are conducted to obtain taxpayer comment.
- 3) Prior to June 30, the budget is legally enacted through passage of an ordinance.
- 4) The Mayor is required by Kentucky Revised Statutes to present a quarterly report to the City Council explaining any variance from the approved budget.
- 5) Appropriations continue in effect until a new budget is adopted.

6) The City Council may authorize supplemental appropriations during the year.

Expenditures may not legally exceed budgeted appropriations at the function level. Any revisions to the budget that would alter total revenues and expenditures of any fund must be approved by the City Council.

G. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with an initial maturity date of ninety days or less.

H. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. The City's infrastructure consists of sidewalks, streets, and traffic signals. Infrastructure acquired prior to the implementation of GASB Statement No. 34 has been reported.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and disposals during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of \$1,000 with the exception of computers and real property for which there is no threshold. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value to the asset or materially extend an asset's life are not.

All reported capital assets are depreciated except for land. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful:

Description	Estimated Lives
Buildings	40 Years
Infrastructure	25 Years
General equipment	5 – 10 Years

I. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, and retirement incentives that will be paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and capital lease obligations are recognized as a liability on the governmental fund financial statements when due.

J. Interfund Balances

On the fund financial statements, unpaid amounts for interfund services are reported as "due from/to other funds". These amounts are eliminated in the statement of net position.

K. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance) of City Council (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of City Council.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within restricted fund balance, committed amounts are reduced first followed by assigned, and then

unassigned amounts when expenditures are incurred for purposes for which amounts in any unrestricted fund balance classifications could be used.

M. Use of Estimates

The preparation of financial statements in conformity GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

N. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislation or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Net position restricted for other purposes consists primarily of programs to enhance the security of persons and property.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature an infrequent in occurrence. Special items are transactions or events that are within the control of the City administration and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

P. Subsequent Events

The City evaluated subsequent events for potential recognition and disclosure through November 3, 2016, the date the financial statements were available to be issued

NOTE 2 – CASH AND CASH EQUIVALENTS

At year-end, the carrying amount of the City's total cash and cash equivalents was \$6,148,029 which was covered by Federal Deposit Insurance Corporation (FDIC) and by collateral agreements and collateral held by the pledging bank's trust department in the City's name.

Cash and cash equivalents at June 30, 2016 consisted of the following:

	Во	ok Balance	Ba	nk Balance
General Fund	\$	4,409,736	\$	4,427,627
Municipal Road Aid Fund		819,971		829,471
Parks And Recreation Fund		38,429		40,006
Madison Pike TIF Fund		526,069		526,069
Fire and EMS Fund		319,634		320,713
Asset Forfeiture Fund		1,982		4,143
	\$	6,115,821	\$	6,148,029

Custodial Credit Risk — Deposits. For deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned. The City maintains deposits with financial institutions insured by the FDIC. As allowed by law, the depository bank should pledge securities along with FDIC insurance at least equal to the amount on deposit at all times. As of June 30, 2016, all the City's deposits are insured by the FDIC or covered by security pledges.

NOTE 3 – CAPITAL ASSETSCapital assets activity for the year ended June 30, 2016 is summarized below:

	Balance			Balance
	July 1, 2015	Additions	Deductions	June 30, 2016
Governmental Activities				
Land	\$ 1,523,000	\$ 0	\$ 0	\$ 1,523,000
Buildings	1,485,754	0	0	1,485,754
Infrastructure/Improvements	22,747,984	456,895	0	23,204,879
Vehicles	1,310,384	86,290	0	1,396,674
Equipment	1,169,229	20,000	0	1,189,229
Total capital assets	28,236,351	563,185	0	28,799,536
Less accumulated depreciation				
Buildings	928,384	43,500	0	971,884
Infrastructure/Improvements	17,823,469	543,285	0	18,366,754
Vehicles	1,142,172	58,670	0	1,200,842
Equipment	876,565	84,586	0	961,151
Total accumulated depreciation	20,770,590	730,041	0	21,500,631
Net governmental capital assets	\$ 7,465,761	\$ (166,856)	\$ 0	\$ 7,298,905

NOTE 4 - COMPENSATED ABSENCES

City employees earn vacation time based on length of service. Employees cannot opt for cash in lieu of time off. Employees also accrue sick days based on length of service. Sick days are not paid out at retirement or termination. At June 30, 2016, accrued compensated absences is \$71,412.

NOTE 5 – CONTINGENCIES

The City is party to various legal proceedings which normally occur in governmental operations. It is neither possible to determine the outcome of these proceedings nor possible to estimate the effects adverse decisions may have on the future expenditures or revenue sources of the City. In the opinion of City management, these legal proceedings are not likely to have a material adverse impact on the accompanying financial statements. Therefore, no provision for any liability that may result upon adjudication of this and similar cases has been made in the accompanying financial statements

NOTE 6 – RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The City has obtained insurance coverage through a commercial insurance company. In addition, the City has effectively managed risk through various employee education and prevention programs. All risk general liability management activities are accounted for in the General Fund. Expenditures and claims are recognized when probable that a loss has occurred and the amount of loss can be reasonably estimated.

Management estimates that the amount of actual or potential claims against the City as of June 30, 2016, will not materially affect the financial condition of the City. Therefore, the General Fund contains no provision for estimated claims. No claim has exceeded insurance coverage amounts in the past three fiscal years.

NOTE 7 - THE COUNTY EMPLOYEES' RETIREMENT SYSTEM

Plan description — The City contributes to the Commonwealth of Kentucky's County Employees' Retirement System (CERS) pursuant to KRS 78.530 administered by the Board of Trustees of the Kentucky Retirement System. CERS is a cost-sharing multi-employer public employee retirement system which covers substantially all regular full-time employees of each county and school board and any additional eligible local agencies electing to participate in the System. CERS provides for retirement, disability and death benefits.

Contributions – Nonhazardous covered employees are required to contribute 5 percent of their salary to the plan. Nonhazardous covered employees who begin participation on or after September 1, 2008 are required to contribute 6 percent of their salary to the plan. The Government's contribution rate for nonhazardous employees was 17.67 percent. Hazardous covered employees are required to contribute 8 percent of their salary to the plan. Hazardous covered employees who begin participation on or after September 1, 2008 are required to contribute 9 percent of their salary to be allocated as follows: 8 percent will go to the member's account and 1 percent will go to the KRS insurance fund. The Government's contribution rate for hazardous employees was 34.31 percent.

Benefits provided—Benefits fully vest on reaching five years of service for nonhazardous employees. Aspects of benefits for nonhazardous employees include retirement after 27 years of service or age 65. Nonhazardous employees who begin participation on or after September 1, 2008 must meet the rule of

87 (member's age plus years of service credit must equal 87, and the member must be a minimum of 57 years of age) or the member is age 65, with a minimum of 60 months service credit.

Aspects of benefits for hazardous employees include retirement after 20 years of service or age 55. For hazardous employees who begin participation on or after September 1, 2008 aspects of benefits include retirement after 25 years of service or the member is age 60, with a minimum of 60 months of service credit.

Prior to July 1, 2009, cost-of-living adjustments (COLA) were provided annually equal to the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year, not to exceed 5% in any plan year. Effective July 2, 2009, and on July 1 of each year thereafter, the COLA is limited to 1.5% provided the recipient has been receiving a benefit for at least 12 months prior to the effective date of the COLA. If the recipient has been receiving a benefit for less than 12 months prior to the effective date of the COLA, the increase shall be reduced on a pro-rata basis for each month the recipient has not been receiving benefits in the 12 months preceding the effective date of the COLA. The Kentucky General Assembly reserves the right to suspend or reduce cost-of-living adjustments if, in its judgment, the welfare of the Commonwealth so demands.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the City reported a liability for its proportionate share of the net pension liability for CERS. The amount recognized by the City as its proportionate share of the net pension liability that was associated with the City were as follows:

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

City's proportionate share of the CERS net pension liability \$ 3,745,760

The City's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2015, the City's proportion was .003329% percent.

For the year ended June 30, 2016, the City recognized pension expense of \$713,046 related to CERS. At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		ws of Inflows	
Differences between expected and actual experience	\$	73,461	\$	0
Changes of assumptions		332,176		0
Net difference between projected and actual earnings				
on pension plan investments		25,102		0
Changes in proportion and differences between City				
contributions and proportionate share of contributions		0		97,763
City contributions subsequent to the measurement date		382,045		0
	\$	812,784	\$	97,763

\$382,045 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows related to pensions will be recognized in pension expense over time.

Actuarial assumptions—The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	CERS
Inflation	3.25%
Projected salary increases	
Investment returns, net of	4.00%
investment expense & inflation	7.50%

For CERS, Mortality rates for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired employees and beneficiaries as of June 30, 2006 and the 1994 Group Annuity Mortality Table for all other employees. The Group Annuity Mortality Table set forward five years is used for the period after disability retirement.

For CERS, the long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2005 through 2008, is outlined in a report dated August 25, 2009. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to

change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

Discount rate—For CERS, the discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan employees and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment return of 7.75%. The long-term investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of CERS proportionate share of net pension liability to changes in the discount rate—The following table presents the net pension liability of the City, calculated using the discount rates selected by each pension system, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (I calculated the amounts in this schedule:

			Curi	rent Discount		
	_ 19	Decrease Rate		1% Increase		
CERS		6.50%		7.50%		8.50%
City's proportionate share						
of net pension libility	\$	3,246,247	\$	3,745,670	\$	4,245,093

Pension plan fiduciary net position—Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports of CERS.

City of Fort Wright, Kentucky Statement of Revenues, Expenditures, and Changes in Fund Balances Budget and Actual General Fund For the Year Ended June 30, 2016

The City has only been provided this information for two fiscal years and will expand this supplementary information in future financial statements to cover additional periods as they become available.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor Members of the City Council City of Fort Wright, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Fort Wright, Kentucky (City), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise City's basic financial statements, and have issued our report thereon dated December 12, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
